## Second hand Teksam production equipment.

Occasionally we are replacing Teksam machines around the world with new and updated versions. When doing so we trade in the used machines and refurbish these.

All refurbished machines have been disassembled –cleaned – painted – reassembled and fully tested before leaving Teksam.

At the moment we have the following second hand equipment for sale:

1 Pancast machine: Pancast 3600 machine for production of hog and cattle slats up to 4 meter length. Complete with handling crane roller conveyors pallets and mould equipment.

1 Pancast machine: Pancast 3600 machine for production, of hog and cattle slats up to 4 meter length without, mould equipment and roller conveyors but including handling crane.

Please don't hesitate to contact us for further details.

***Our mission is to provide high quality equipment that can be built from standardized modules to meet customer's specific requirements***
