

No.1 - 2013

*“Teksam machines are operating globally...”*

The first Teksam INFO is now "in the air".

To keep current and future customers informed and updated about the full range of products provided by Teksam we have decided to issue INFO letters to present our products. Please check our home page from time to time to find the latest version of INFO.

Teksam is based in Denmark and has been engineering and manufacturing production equipment for the Precast Concrete Industry for more than 30 years. Teksam machines are operating worldwide manufacturing products like 20 kg Meter Boxes as well as 16 tons Pipes and Box Culverts.

It is our policy to establish a close cooperation with our customers to ensure that we supply the machines and equipment that meet their individual requirements.

Teksam has gained a reputation for innovative engineering of machines and

Teksam, Hanstholm, Denmark

equipment. Today we engineer, design and build reasonable priced machines and equipment, that get the job done.

As a result of focusing on our customer's requirements a very comprehensive product program with proven efficiency has within the last 30 years been developed.

Teksam's service includes installation and commissioning of machines and equipment and we provide continuing support and consultation to ensure a smooth and efficient daily operation.
